

<Important: email your list of check ins to <southcoast_ec@sc4ares.org> once you're done.>

This is <your name> <your call>. I am net control operator for this evening's SC4ARES net. This net is held every Monday evening at 7:30 PM (1930 hrs).

It is a net bringing together the communities of La Honda, Loma Mar, Pescadero, San Gregorio and South Skyline for training in emergency communications and for neighborly talk.

<Pause to allow repeater to reset.>

This is a directed net: Please pass all traffic through net control. Stations not participating are requested to stand by until this net is completed. Stations with emergency or priority traffic may break in at any time.

Is there any emergency or priority traffic? Please come now.

<Listen for a few seconds after the squelch drops. Handle any traffic if required.>

Are there any announcements? Please come now.

<Listen for a few seconds after the squelch drops. If there are announcements: Call each one in turn.>

We will now have check ins. Please respond with your call sign and remember to hold your mike button down a second before you begin speaking: This will allow the repeater time to pick up.

After check ins there will be a time of discussion.

<Proceed through roll call list. Don't forget to give your call sign as identification every 10 minutes as per the FCC requirement. A good idea is to give your call sign when you hear the repeater ID.>

Are there any more check ins for the net? You do not have to be a member of this group to check in.

<Listen for a few seconds after the squelch drops.>

I'll now go through the list and ask you each how your day went <or you can come up with an interesting topic>. Please finish your turn by giving your call sign.

<Go down through the roll call list passing the net to each person in turn. i.e. "<their call sign> how was your day?">

Do we have any late or missed check ins? Please come now.

<Listen for about 2 seconds after the squelch drops. Take any additional check ins and then pass them the net for their turn like above.>

The SC4ARES group wish to thank the owners of the repeater and all those who participated in tonight's net. This repeater is now returned to general purpose use at <local time>.

<Close with your call sign. Remember to email your check in list to <southcoast_ec@sc4ares.org> - Scans or photos are ok.>
